

ABOUT CVEF

The Conestoga Valley Education Foundation (CVEF) helps bring the ideas of visionary educators to life in our schools!

The Conestoga Valley Education Foundation was formed in 1991 with a mission to promote the growth and success of Conestoga Valley youth by providing resources to enrich their current learning opportunities, values, well-being, and cultural experiences with the support of teachers, staff, and community members.

Since its inception, CVEF has awarded more than \$1,000,000 in grants to students, teachers and administrators. The programs and projects supported by these grants would not have been possible through regular school district budgets.

CVEF is a 501(c)(3) Charitable Organization.
